FOR IMMEDIATE RELEASE

Construction Begins on Dryden Splash Park

Dryden ON, July 18, 2022

Construction of the 2800 square foot Splash Pad funded by Dryden GM, as part of the Beyak Automotive Group, has begun at Rotary Park in Dryden, ON.

“It’s exciting to see us breaking ground after months of planning by our Facilities Manager Tyson Dennis, and City of Dryden Staff” comments owner, Nick Beyak. “I know anticipation will be building among parents and children of the community as construction moves forward and nears completion. We will be updating our progress to the public through social media posts and look forward to the grand opening in mid-August.”

Construction crews began groundwork on Monday, July 11th, with ground stripping, safety fencing and sub trade visits. The City began installing sewer/wastewater today, and will follow with granular preparation and forming. Foundation work will start July 25th and will continue into early August, with completion expected mid-August. Upon completion, the City of Dryden will maintain and service the Splash Park.

The Beyak Automotive Group, comprised of Dryden GM, Sunset Country Ford, Fort Frances GM, Sioux Lookout GM and the Fort Frances Collision Centre, is committed to providing exceptional customer service and employee satisfaction, as well as strong support for the communities where they do business. These commitments have formed the foundation of their success. With over 110 dedicated employees, the Beyak Automotive Group is excited about what the future holds as they continue to serve and invest in the people of Northwestern Ontario.
